CANCHA SEGURA

CANÓVANAS BASKETBALL

A community transformation initiative through basketball and cognitive development.

FROM CANÓVANAS TO PUERTO RICO

1. Initiative Overview

CANCHA SEGURA is a community impact initiative by Canóvanas Basketball that seeks to prevent violence, discourage youth involvement in criminal activity, combat bullying, and promote the comprehensive development of children and adolescents.

The initiative will begin in Canóvanas, Puerto Rico, through a model combining basketball leagues, camps, training, mentorship, anti-bullying education, and cognitive development through COGNOGYM.

> **Our proposition: use the power of basketball to develop stronger minds, responsible young people, and safer communities.**

2. Our Mission

To positively impact community sectors through organized basketball, cognitive training, mentorship, and bullying prevention, creating opportunities that help prevent violence, discourage criminal activity, and strengthen personal development.

3. Our Vision

To establish CANCHA SEGURA as a community transformation model beginning in Canóvanas and progressively expanding to other municipalities across Puerto Rico, transforming courts into spaces for opportunity, inclusion, leadership, and development.

4. The Community Challenge

Different communities in Puerto Rico face challenges involving violence, bullying, limited recreational opportunities, and youth disengagement. CANCHA SEGURA proposes a preventive response based on consistent participation, guidance, and stronger positive

relationships.

5. Our Programs

Community Basketball Leagues

Organized leagues promoting healthy competition, discipline, teamwork, respect, leadership, and community pride. The leagues will encourage youth and family participation across different neighborhoods.

Basketball Camps

Recreational and educational camps combining basketball skills with mentorship, character development, bullying prevention, and cognitive training activities.

Athletic Training and Development

Training sessions adapted to different ages and experience levels, focusing on basketball fundamentals, coordination, physical conditioning, discipline, and personal improvement.

Bullying and Violence Prevention

Activities promoting respect, empathy, inclusion, self-control, and peaceful conflict resolution. Clear conduct standards and appropriate reporting and response procedures will address bullying concerns.

Mentorship and Community Engagement

Coaches, mentors, families, and community leaders will work together to guide participants, reinforce positive decisions, and strengthen connections between young people and their communities.

6. COGNOGYM — Our Signature Innovation

Interactive Cognitive Training

COGNOGYM is the innovative component of CANCHA SEGURA. It complements physical activity with interactive digital exercises designed to challenge cognitive abilities important for learning and personal development.

The platform runs in a browser and is optimized for smartphones, tablets, and compatible computers. Participants can choose the exercises they wish to practice and progress through different levels.

Training Areas

- Attention and concentration
- Memory and recall
- Visual recognition
- Reaction speed
- Patterns and sequencing
- Cognitive flexibility
- Decision-making

> **CANCHA SEGURA develops the player. COGNOGYM challenges the mind. Together, they contribute to personal development.**

7. Beginning in Canóvanas

Canóvanas will be the starting point of CANCHA SEGURA. Through Canóvanas Basketball, the initiative proposes beginning in selected community sectors, using accessible recreational facilities and encouraging participation from youth, families, and local leaders.

This initial phase will establish leagues, camps, training, prevention activities, and access to COGNOGYM. Experience gained will help evaluate outcomes, refine the model, and prepare for expansion.

> **Canóvanas will not simply be the first participating municipality. It will be the birthplace of an initiative with a vision for all of Puerto Rico.**

8. Our Prevention Approach

Crime and violence have multiple contributing factors. CANCHA SEGURA does not claim that sports alone can eliminate them. Our approach seeks to contribute to prevention through positive opportunities, supervision, mentorship, healthy relationships, and

structured activities.

9. Measuring Our Impact

The initiative will evaluate progress through participation, attendance, retention, activities delivered, bullying-prevention engagement, COGNOGYM usage and progression, and feedback from youth and families. Where reliable data and specialized evaluation partnerships exist, community safety indicators may also be examined.

10. From Canóvanas to Puerto Rico

Our vision is to develop a community model that can be adapted and expanded to other municipalities. Experiences and results from Canóvanas will provide a foundation for strengthening the initiative and building partnerships with organizations, institutions, and communities committed to youth development.

11. Our Commitment

CANCHA SEGURA is grounded in the belief that every child and adolescent deserves opportunities to learn, grow, participate, and reach their potential. Through basketball, mentorship, bullying prevention, and COGNOGYM, we seek to contribute to stronger, more inclusive, and safer communities.

12. Closing Statement

CANCHA SEGURA is more than a basketball program. It is a community transformation initiative combining sports, education, mentorship, and innovation to encourage positive decisions and create new opportunities for our youth.

> **Stronger Minds. Stronger Players. Stronger Communities.**
